

# HARRY THAW ACQUITTED OF MURDER OF STANFORD WHITE

## On the Grounds of Insanity and Committed to Asylum Till His Recovery

### MOTHER FAINTS UPON HEARING VERDICT

### Jury Was Out Twenty-five Hours Almost to the Minute and It is Said Took About a Dozen Ballots

### Prisoner Smiles Broadly Upon Hearing the Verdict Read—Littleton May Ask for Insanity Commission to Prove Thaw's Present Sanity.

NEW YORK, Feb. 1.—It is announced that Thaw's attorneys will late this afternoon apply to Justice Newburger of the Supreme court for a writ of habeas corpus, directed against the district attorney, to compel him to show cause why Thaw should not be committed to a private sanitarium, instead of the state asylum for the criminally insane at Matteawan.

NEW YORK, Feb. 1.—Harry Thaw was acquitted of the murder of Stanford White shortly after noon today, the grounds being insanity. Immediately after the jury had returned its verdict, Justice Dowling committed the prisoner to the asylum for the criminally insane at Matteawan, subject to his possible recovery. The jury had been out 25 hours almost to the minute, and is said to have taken in the neighborhood of a dozen ballots before reaching a verdict. The next to the deciding ballot is reported to have stood nine for acquittal and three for conviction in some degree of murder, less than first. During the argument following this ballot, one of the three holding out came over for acquittal, and the other men capitulated.

Evelyn Thaw, the wife of the prisoner, and Josiah Thaw, his brother, were in the court room at the time the verdict was received.

Mrs. William Thaw, mother of the prisoner, was at her hotel where word was phoned her. It is said she fainted upon hearing the verdict.

Upon the jury stating that they had reached a verdict, Thaw was told to arise. He did so, and the finding of the twelve men that he was "not guilty on the grounds of insanity," was read to him. Thaw smiled broadly and resumed his seat, turning to smile at his wife and brother, who returned the greeting.

Jerome and Littleton each sought to gain the floor, but Justice Dowling waved them down, and before any argument could be offered by either side, announced that he would commit the prisoner to Matteawan at once. Thaw was then taken back to the Tombs to await the further action of the court, which will not be taken until next week.

In the meantime Attorney Littleton will seek to have the prisoner committed to some private sanitarium, and it is probable will later ask for an insanity commission, before which he will seek to prove Thaw's present sanity.

## TEN MINUTES

All the Time Taken to Render Verdict for Contractor Oliver in Alimony Case.

Atlanta, Ga., Feb. 1.—Mrs. Nannie Cross-Oliver Friday lost her suit for divorce and \$160,000 alimony against William J. Oliver, the noted contractor of Knoxville, Tenn., who came near being awarded the Panama Canal contract.

The plaintiff alleged a common-law marriage existed between her and Oliver and she sued on the ground of

adultery, as Oliver had married a lady of Knoxville. Oliver admitted that he had been intimate with the plaintiff for years, had traveled with her over the country and had spent \$75,000 on her, but denied that he had ever married her.

In addition many witnesses attacked the character of the plaintiff, who admitted she was leading an immoral life when Oliver met her. The jury returned a verdict for Oliver in ten minutes.

## UNREQUITED LOVE

PROMPTED SUICIDE  
Chicago, Feb. 1.—Stanley Roher, aged 43, preferred death to life without Mrs. Ida Yagle, a widow with whom he was in love. He asked her to marry him today, and when she refused, shot twice at her. She escaped, but he turned the gun upon himself and died before he reached a hospital.

## BROOKLYN BANK FAILS TO OPEN

New York, Feb. 1.—The Home Bank of Brooklyn failed to open its doors this morning. A run on the bank has been in progress for several days. The bank officials announced that the state banking department has taken charge of the institution. The bank had a paid-up capital of \$100,000. Its deposits are estimated at \$389,000.

"MY GOD, HARRY, THEY KNEW, THEY KNEW," SOBBED EVELYN

New York, Feb. 1.—There was a touching meeting between Thaw and his wife in the ante-room after the verdict was announced. Evelyn threw herself into her husband's arms and sobbed, "My God, Harry, they knew, they knew, but I want you with me. O, how I want you."

Thaw tried to reassure her, but she wept for some time. Thaw himself seemed well satisfied with the verdict. Littleton has assured him that he has nothing to fear, and that an insanity commission, even of physicians in charge of the state asylum, can be readily convinced of his present sanity.

## TOM LAWSON PLUNGES ON ROOSEVELT

Boston Man Will Bet \$100,000 to \$75,000 That President Will Get Third Term.

Boston, Feb. 1.—The bet of \$100,000 against \$75,000 is the offer Tom Lawson made today, to back up his confidence that President Roosevelt will get a third term. Yesterday's message to Congress he says, clinches things. "It's bully," says Lawson of the message. "In sixty days from now there will be no other presidential candidate in sight in the Republican ranks. Governor Johnson of Minnesota will be chosen as the Democratic candidate with the endorsement of Bryan. Then there will be nothing to it, for Johnson will say a few things in favor of Roosevelt, and it won't be an election day—it will be an appointment."

## BEGIN ACTION TO SMASH THE HARRIMAN ROADS

Salt Lake City, Utah, Feb. 1.—An action was begun in the United States Circuit court today by which the government feels confident it will be able to smash the Harriman system. The charge is that through illegal conspiracy Harriman and his associates absolutely control the transportation business in the vast domain between the Mississippi river and the Pacific ocean, south of Portland, Oregon.

The papers in the suit were filed by United States District Attorney Brothman and C. A. Severance, E. H. Harriman, his associates, and the systems they control are named as defendants. The bill prays for the dissolution of alleged combination between the Union Pacific and the other corporations.

## JUDGE A. C. THOMPSON REFUSES INJUNCTION AGAINST PRESSMEN

Cincinnati, Feb. 1.—Judge A. C. Thompson in Federal court today refused to enjoin the pressmen from striking. The request for an injunction was made by the employers' organization.

## DEATH AND RUIN IN WAKE OF A CYCLONE IN MISSISSIPPI

Hazlehurst, Miss., Feb. 1.—The fourth visitation of cyclones upon this section within the past 25 years passed to the south of here Friday afternoon, claiming 11 human victims and leaving a trail of dead cattle and flattened homes, barns and fences a quarter of a mile wide and eight to ten miles in length.

The approach of a dark green funnel-shaped cloud gave warning to some of the impending disaster. The cloud came from the southwest and moved a few miles below here in a northeasterly direction.

## FLEET SAILS

For Punta Arenas and Big Parties of Chilean Excursionists Set Out to Welcome Americans.

Punta Arenas, Feb. 1.—The Chilean government tender, Yanez, and several private steamships, thronged with excursionists, have sailed to meet and welcome the American battleship set off Magdalena Island. The fleet weighed anchor and sailed early today from Possession bay, 20 miles west of where the Strait proper begins, Admiral Evans having deemed the navigation of the first and second narrows between Possession bay and Punta Arenas too hazardous to be undertaken by night.

## MINERS AGREE TO AGAIN MEET THE OPERATORS

Indianapolis, Feb. 1.—The Miners' National convention after a hot debate this morning, voted acquiescence in the request of the operators for another conference between the miners' executive committee and the operators in Indianapolis February 27. The general impression is that in the meantime the Illinois operators will reach some agreement with their miners, which will make the calling of an inter-state convention an assured fact some time in March.

## \$90,000 FOR POSTOFFICE STILL AVAILABLE SAYS CONGRESSMAN ASHBROOK

And It is Up to the People of Newark to Agree in Offering a Suitable Site for a Reasonable Price.

Congressman W. A. Ashbrook, who was called home from Washington Friday, by the death of a relative of Mrs. Ashbrook, stated to an Advocate representative that the appropriation made by Congress for a postoffice building in Newark, had not reverted or lapsed to the government, but was still available for that purpose. This information, Mr. Ashbrook stated, he had personally derived direct from the department in Washington. Mr. Ashbrook suggests to the citizens of Newark, through the Advocate, that it behooves them to bestir themselves to provide a desirable site for the proposed Newark postoffice building.

What is needed, in Mr. Ashbrook's opinion, is for the Newark business men to get together and offer a suitable site to the government at a reasonable price.

## M'MULLIN GUILTY OF CRAIG'S MURDER

New Lexington, O., Feb. 1.—A verdict of second degree murder was returned against William McMullin, the slayer of Thomas Craig, Friday. The jury deliberated 30 hours. The crime with which McMullin has been found guilty was committed on the night of August 10, 1907, in the home of Thomas Craig, a farmer. Craig was giving a barn dance, and while the evidence shows that he and the prisoner had never met prior to that event, it seems that they quarrelled over Craig's wife.

## GUILTY OF MURDER

West Chester, Feb. 1.—The jury in the trial of Irwin A. Lewis, returned a verdict today finding him guilty of murder in the first degree for the killing of five-year-old Mary Newton, his wife's daughter. The child was found buried behind a barn. The state claimed she was buried alive. Lewis pleaded insanity and claimed that he found the child dead and buried her secretly fearing he could be charged with murder.

Some people jump at conclusions, and others make their mistakes quite methodically.

## VIEWS

### Expressed On President's Message Differ

### W. J. BRYAN IS PLEASED

### And Says It Embodies Ideas Advocated by Democrats

### Chancellor Day of Syracuse Says It Sounds Like Ravings of Disordered Mind.

Discussion of the President's message brings to light views that widely differ. It is generally conceded among politicians that Roosevelt, in this document, has made a bid for the nomination for the presidency, and attention is called to the fact that it was sent to Congress upon the very same day that Governor Hughes was to announce his position upon the very questions dealt with in the message, and that they would be printed side by side Saturday morning.

W. J. Bryan and many other Democrats are of the opinion that it is in line with policies advocated by them for years.

## "MOST PLEASED" COMMENTS BRYAN

Wilmington, N. J., Feb. 1.—Bryan expressed himself as being "most pleased" with the message. He was of the opinion that the effect would be beneficial to the Democrats in the national campaign this year, as following, in many respects, the principles of his party.

When he finished reading the message he dictated a statement which he said expressed his views of the situation. It follows:

"It is a grave message, and needed at this time. All friends of reform have reason to rejoice that the President has used his high position to call attention to the wrongs that need to be remedied. He has discovered the running sore in our national life. He has pointed out the corrupting influences that flow from predatory wealth and from the monopolistic enterprises, which have given unearned riches to the few, who, by controlling great industries of the nation, have levied tribute upon the whole country.

"The President has issued a call to arms. Now let the battle begin, and we shall soon be able to pick out the purchased newspapers and the purchased legislator described by the President, but not specially named."

## CHANCELLOR J. R. DAY DENOUNCES MESSAGE

Syracuse, N. Y., Feb. 1.—Chancellor Jas. R. Day of Syracuse university, gave out the following statement regarding the President's message:

"Of the President's message, if I am entirely honest and frank, I am compelled to say that much of it reads like the ravings of a disordered mind, and other portions, in which appeal is made to class prejudice and excitement, is large with the suggestion of the adroit and cunning, the shrewd, but reckless, demagogue.

"I speak thus freely because the message is plainly not a message to Congress, but a harangue to the people.

"The whole message is the familiar ranting against what he calls 'criminal wealth,' and it proceeds upon the slanderous assumption that so great a per cent of the corporate business of this country is so corrupt as to demand special messages to Congress, popular harangues by the President, and the entire time, ability and effort of Congress in a volume of corrective legislation such as the world has never seen.

"As I am one of those 'hired' book writers referred to, a personal word may be permitted. Not a nickel or a dime was ever offered to me by any person, company or corporation for a sentence or paragraph in print in any shape or form whatever. No such (Continued on page 4, 2d col.)

## Remember This Recipe For Cold and Cough Cure

Simple as it is, there is nothing better for colds and stubborn coughs. Tastes pleasant, too, and can be made at home at small cost.

Granulated Sugar Syrup, 13 1/2 oz.  
Pinex ..... 2 1/2 oz.

The 2 1/2 oz. of Pinex will cost you 50 cents at any drug store. Put the Pinex in a pint bottle, then fill it up with the Granulated Sugar Syrup. Take a teaspoonful every one, two or three hours, as required. The pint is enough to last a family a long time. Well corked, it keeps indefinitely.

Pinex is the most concentrated form of Norway white pine extract. It is rich in all the elements that have made the Norwegian pine forests famous in curing consumption and other membrane diseases.

In making up this prescription, do not expect good results unless you use Pinex. It may be that some druggists do not have it, but they can get it for you easily if requested to do so.

## TO GET AT FACTS

Ohio Legislature Shows Willing Spirit of Investigation.

### MECK'S CHARGES TO BE SIFTED

State Treasurer Refuses to Make Public Some Facts About Deposits of State Funds Asked For by the House—Senate's Defeat of Howe Bill to Tax Franchises—Recess For Republican Primaries.

Columbus, O., Feb. 1.—(Special).—A spirit of investigation seems to prevail among the members of the legislature. Two investigations already have been ordered, one by the Tinker resolution to go over the Southern Ohio canal, and the other by the West resolution to probe Senator Meck's charges against the state school department. The Espy resolution adopted by the senate, for further investigation of the city affairs of Cincinnati, will come up in the house next Monday, and the probabilities are that it will be adopted.

As soon as it can organize and make the necessary preparations the joint committee of senators and representatives will begin investigation of Senator Meck's charge of traffic in state school certificates. Speaker Eagleson named Little of Greene and Dever of Scioto, Republicans, and Harlan of Morrow, Democrat, as the house members of the committee. The senate members, as stated heretofore, are Lamb (Ind.), Beatty (Dem.) and

WILLIAM H. MECK, Whose Charges Will Lead to Probe of School Department.

Sites (Rep.), so that the committee stands three Republicans, two Democrats and one independent. As the accuser, Senator Meck, is a Republican, and the accused, State School Commissioner Jones and members of the state board of examiners, are Republicans, the Republican majority on the investigation committee ought to be able to conduct an investigation that will be satisfactory to all concerned.

W. S. McKinnon, state treasurer of Ohio, a former member of the house, refused to answer the main question in the Stockwell resolution adopted by the house, asking him about the deposits of state funds and the banks obtaining the same. Mr. McKinnon's reply to the resolution stated the number of such depositories, the aggregate of deposits and the interest yield therefrom, but he refused to give the names of the banking concerns with which deposits were placed, declaring that to do so would be against public policy. He expressed a willingness in his reply to make an exhibit of the list to members or committees, or chairman of committees, who would call at the treasury for that purpose, but he objected to the publication of the list. It was publicly that was sought by Mr. Stockwell. Whether he will be content with the state treasurer's reply remains to be seen.

Using the proposed tax amendment to the constitution as a buffer the Republican members of the senate defeated Senator Howe's bill for taxing franchises. The opposition was led by Senator West and obediently followed by other Republican senators, with the result that the bill was defeated by a vote of 15 yeas to 20 nays. Those who voted for the bill were: Beatty, Berry, Drake, Espy, Gayman, Hafner, Howe, Huffman, Hunt, Lamb (Ind.), Mahaffey, Schmidt, Vanover, Ward and Williams. Those who voted against it were: Denman and Harber, Democrats; Arbenz, Atwell, Brandt, Crist, Duvall, Hypes, Kinsman, Luman, Lawyer, Mather, Meck, Patterson, Pollock, Rathburn, Rose, Russell, Sites and West. Carter and Boehmer, Democrats, did not vote.

Whether the senate will retaliate by defeating the administration's tax resolution to rip up the constitution is not known, but it has sufficient votes to do it if those who voted for the Howe bill should vote against the administration's resolution.

This resolution will come up for consideration in the house next week, having been favorably reported by the house committee on taxation.

As reported with the recommendation of the senate judiciary committee, the Atwell initiative and referendum resolution was somewhat amended. The petition percentage is left at

5 per cent for the initiative, that is, for getting a measure before the legislature. The percentage for a referendum appealing to the people from the action of the legislature was put at 10 per cent, and must be filed with the secretary of state for the purpose of being placed on the ballot not later than 45 days prior to the November election. An important proviso, as an amendment by the committee, stipulates that "the votes cast on any measure shall equal not less than 60 per cent of the whole number of votes cast for governor at the last state election preceding the filing of the petition. Petitions for popular vote upon any act passed by the general assembly shall contain the signatures of not less than 5 per cent, and petitions for popular vote upon any bill introduced but not passed by the general assembly shall contain the signatures of not less than 10 per cent of the electors in a majority of the congressional districts of the state. Separate ballots shall be provided for the submission of measures to a direct vote of the people. These ballots shall bear no party emblem or endorsement." Although this compromise was reached as a concession to the opposition, four members of the senate committee, Brandt, Mather and West, Republicans, and Carter, Democrat, voted against the recommendation.

To hasten work on the general appropriation bill the house finance committee divided itself into several subcommittees to make inspections of state institutions, beginning next week. Miami and Wilberforce universities, the Dayton and Longview state hospitals and the Soldiers' and Sailors' Orphans' home will be visited by Holles, Jones and Bense; Toledo and Massillon state hospitals and the Soldiers' home by Ervin, Gaston and McGinnis; the Cleveland state hospital, the Madison home and the state agricultural experiment station, by Woodburn, Yost and Humphrey; the Boys' industrial school, Athens state hospital, Ohio university and the epileptic hospital, by Guthrie, Braun and Spicer. Plans for visiting other institutions are not yet arranged.

Senator Hafner's bill to institute in Ohio under police power what Pennsylvania does under license to regulate saloons will put to the test those who have declared that Ohio has not some such way to regulate saloons as the Pennsylvania system. Mr. Hafner's bill is not a license measure. It assumes to regulate the conduct of saloons by a commission that shall pass upon the qualifications of men who may engage in the saloon business. The bill provides that mayors of cities or villages and presidents of boards of township trustees shall appoint a "known as a liquor tax commission." The commission is to grant certificates to carry on the saloon business, but may refuse them if not satisfied with the character of the applicant or if the place is objectionable owing to location. The commission has the further power to recommend the revocation of a certificate already granted in an illegal, improper or disorderly manner. The only method by which the license system could be applied to the business in this state would be to amend the constitution, and the Hafner bill presents no such a proposition, but simply amends the Alkin tax law to do under the state's police powers what Pennsylvania does by license. All the laws on the statute books of Ohio today relating to saloons are predicated on the state's police powers and not on constitutional provisions. The search and seizure act, the laws forbidding the sale of liquors in dance halls, forbidding the sale of liquors to minors and inebriates, the local option law, are all enforceable by the state's police powers, and so will be the Rose county option bill if it passes. Senator Hafner believes that if all these things can be done under police power the fixing of certain qualifications for men who desire to engage in the saloon business can be enforced under the same authority. His bill is in line with the expressed policy of the German-American Alliance of Ohio so far as it is possible to go without amending the state constitution.

What the fate of the Rose county option bill will be when it comes up in the senate Tuesday is almost a guessing contest here at the capital. Friends of the bill are confident that it will pass the senate, by a close vote, and the house will have votes to spare. The opponents of the measure are just as confident that it will be defeated in the senate, but neither side will give the names of the senators upon whose votes they are counting to give them the victory. Senator Drake (Dem.), chairman of the senate temperance committee, held out until Thursday, when he joined Atwell and Sites, the Republican members of the committee, in signing the report recommending that the bill be passed. The other two Democratic members of the committee, Harper of Hamilton county and Ward of Cuyahoga, did not sign the report.

On account of the Republican primaries, the legislature will adjourn next Thursday until Feb. 12, the day after the primaries. A resolution for that purpose was adopted by the house, in which the senate doubtless will concur.

Senator Espy of Cincinnati will test by a resolution next week the question as to whether a successor to Senator Foraker in the United States senate shall be elected at this session of the legislature.

## OBITUARY

## DANIEL VARNER.

Daniel Varner, one of the best known and highly respected farmers of Hanover township, died at the residence of his adopted daughter, Mrs. Oscar Fairall, three miles east of Clay Lick, on January 26, 1908, after a short illness of two weeks. The cause of death being the second stroke of paralysis. The funeral was held on Wednesday, the 23rd, at Brushy Fork, and was largely attended by relatives and friends, having been a faithful member of that church for the last 25 years.

Daniel Varner was born April 12, 1838, and was the youngest of a family of eight children of which only one sister, Mrs. Deliah Lescalliet survives. On September 23, 1859, he was married to Miss Lucy A. Bardley whose death July 7, 1907, is still fresh in the memory of friends and relatives, who delight to honor her for her many acts of kindness and love. Three children, Linda, Homer and Laura preceded their parents to the spirit land many years ago. Mr. Varner was a man of strong rugged character and unflinching integrity. For a number of years he was one of the trustees of Hanover township.

Long live the memory of Daniel Varner, the noblest work of God, an honest man.

## SANTA FE OFFICER'S REPLY TO MESSAGE IS VERY CAUSTIC

Santa Barbara, Cal., Feb. 1.—President H. P. Ripley of the Santa Fe railroad, today replied caustically to that part of President Roosevelt's message referring to his letter to Washington upon the Wellborn decision against the railroad. Mr. Ripley was angered by the tone of the President's reference to him.

"That statement," said President Ripley, "that I was a party to a secret rate on oil in California, is false. On the contrary, I emphatically and absolutely declined to grant it. In this case, as in other cases, the government has used information furnished by a discharged employe, making no attempt to verify the charges, but proceeding to make the charges public in exparte public documents."

"I am not one of those who have attacked the actions of the administration. I have simply defended myself and my corporation from unjust attacks."

"This is simply an attempt to get back at me for my letter upon the Wellborn decision."

"But how does Henry get into this controversy?" was asked.

"Oh, I suppose he was either asked to furnish information or volunteered for self advertisement. The matter was within the state and was the state's business, and had nothing to do with President Roosevelt or Washington. Henry admits as much himself. In fact, some of my remarks got under their skin up at Washington, and they are trying to break even."

Representative Robert W. Howard, who has been confined to his house with illness since last Thursday night, is somewhat better today.

Lee Fleming and Frank Stein, machinists at the B. & O. shops, left Friday night for Washington, D. C. They expect to return Monday.

Mrs. George Gorius has returned home from Zanesville, where she was called by the sickness and death of her mother, Mrs. Catherine Hammer.

Miss Kathryn Simonds leaves this evening for New York City where she will remain about ten days studying dancing under a French professor.

Mrs. Will Cunningham, who, with her two children, has been the guest of her mother, Mrs. Maggie Mitchell of Mt. Vernon, returned to Newark, Friday.

Misses Agnes Walsh and Dee Schumann of Denison University are spending Saturday and Sunday with the latter's brother, Mr. Schumann of Seventh street.

Congressman W. A. Ashbrook passed through the city Friday morning, being called to his home in Johnston by the death of a relative of Mrs. Ashbrook. He will return to Washington on Monday.

ADMIT PLOT TO MAKE REPUBLIC OF PORTUGAL

Lisbon, Feb. 1.—Sprent admitting the existence of a wide spread plot to establish a Portuguese republic, the government published an order today forbidding public gatherings of any kind, giving magistrates full power to deal with political offenders and threatening severe penalties against every one guilty of encouraging anti-monarchical activity. The decree was signed by King Carlos last night and appears today conspicuously posted about the city.

AUDITORIUM TRUSTEES DECIDE TO RECEIVE SEALED PROPOSALS FOR THREE YEARS LEASE ON FEB. 7

The trustees of the Soldiers and Sailors Memorial Hall held a special meeting Friday night at which all members were present, being Messrs. Jonathan Rees, Edward Kibler, D. L. Jones, Henry Bostwick, Martin Hartshorn and W. A. Lovett. The meeting was held for the purpose of determining upon the form of a contract of lease for the Auditorium theatre for three years, beginning May 1. A form of lease was agreed upon and the board determined to invite sealed bids based upon the lease to be received by 7:30 o'clock Friday evening, Feb. 7, at the hands of the secretary, D. L. Jones. The board ordered Mr. Jones to publish notices in the daily papers inviting bids.

A communication was received from the Ohio Theatrical Circuit company, announcing their desire and intention to make a bid for the lease of the Auditorium. This association is in league with the finest theatrical companies on the road and have leases on Weller's Opera House of Zanesville and a great many others of the larger houses in the state.

The provisions of the contract for the lease provides that the lessee shall pay the expenses of operating the house and keep up all ordinary repairs and pay three-fourths of the lighting and heating expenses of the building; permit the schools to hold their commencement at the same price as heretofore; permit the soldier organizations to hold their meetings in the same manner as heretofore without expense except light and heat; and the lessee to pay as a stipulated sum per year for the lease.

Manager Fred Mason of the Weller theatre of Zanesville, was in the city Friday and will put in a bid for the lease of the Auditorium. Mr. Mason represents the Cohen & Harris interests, who have control of the Weller theatre and the old Shultz house. The Cohen & Harris syndicate manage a large number of the best theatres in the state and have organized what is known as the Ohio circuit. Should they succeed in gaining control of the Auditorium it would be a break in the long jumps from Columbus to Zanesville.

Messrs. Cohan & Harris undoubtedly will make every effort to lease the house even if it means a financial loss to them for they will then succeed in completing the link of their chain of theatres throughout the state. Manager Mason stated Friday that he would try and secure the lease even if he had to bid higher than the earning capacity of the theatre, as Cohan & Harris had authorized him to secure it even at a loss.

It is also understood that Mr. Ernest Johnson, and Mr. W. D. Harris will have bids in for the lease. Mr. Johnson is the present manager and has given the theatre-loving people of Newark a number of high class attractions this season. Mr. Harris is no novice at the business and should be fortunate enough to secure the theatre would endeavor to give our people the best attractions which could possibly be secured.

No matter who obtains the lease Newark is bound to profit in the long competition now going on as this city is recognized as one of the foremost theatrical cities in the state.

AN EXPLANATION

About the Birds of Ohio and Their Reception at Edmiston's.

Few people realize what a tremendous amount of scholarship, energy, research, artistic skill, and capital are required to produce such a great bird display as we now have on exhibition at the book store of Mr. T. M. Edmiston. In the first place, experts from all over the State of Ohio were employed, many of them on high salaries, to keep a record for years of the habits of birds, their nesting, their migrations, and in fact, everything connected with their bird life.

Expensive cameras had to be purchased to secure photographs of live birds, nests, eggs, homes and haunts of the three hundred and twenty (320) Birds of Ohio, and any one who has tried to photograph a bird knows what a difficult task it is. Teachers of the highest order had to be employed to produce identification keys: artists skilled in photography, worked for years upon the life like plates which reproduce in natural colors so many of the Ohio Birds. These plates were all made from museum mounted specimens, and then three separate plates made for each bird, necessitating an expenditure of \$80.00 per picture before the printing. This one item alone illustrates the tremendous expense of producing "The Birds of Ohio." The publishers, "The Ohio Library company," of Columbus, have sold nearly \$14,000.00 worth already of this work at their regular retail prices. However, as they are preparing a Natural History of Ohio, which shall include in addition to "The Birds of Ohio," the "Animals of Ohio," "The Fishes of Ohio," "Plants and Flowers of Ohio," "The Trees of Ohio," "The Insects, Bees and Butterflies"—10 volumes in all when completed, they have decided to give to the people of Newark FOR ONE WEEK in order to introduce this Natural History Series, a SPECIAL INTRODUCTORY PRICE of only a TRIPLE MORE THAN HALF that for which The Birds of Ohio have always sold and for which they will always sell after the Bird Reception which closes on Friday, February 7th. This is an opportunity to get acquainted with The Birds of Ohio which will never come again. The birds invite you to come and see them during their brief stay and see them with all their beautiful plumage as well as learn many other facts about them.

(Note on Monday about the birds.)

## VIEWS

(Continued from Page 1.)

partly knew a syllable contained in my book until it was published."

STOCK EXCHANGE

PRICES WERE FIRM

New York, Feb. 1.—Wall street had been prepared for the tone of the President's message through the rumors regarding the documents which had been in circulation for several days, and on the Stock Exchange prices displayed considerable firmness.

The Stock Exchange refused to take seriously the idea that anything would follow the "stock gambling" recommendation which might affect it. The Exchange authorities have always exercised the strictest control over the telephone, telegraph and ticker service generally, which disseminate stock quotations and serve regular brokers.

All leading stocks, however, closed weak today.

The Standard Oil company would make no statement.

DOES NOT ASTONISH

SAYS AN EDITORIAL

New York, Feb. 1.—Editorially the Times says of President Roosevelt's message:

"Roosevelt has lost the power to astonish the country. His special message will be read with astonishment at least, but also with profound regret, but unmingled with disquietude."

In the unseemly and undignified violence of language it surpasses all its previous achievements, and by its tone and temper it engenders a natural apprehension as to the extreme to which this ill-balanced man may permit his perverted zeal to carry him."

Seven Years of Proof.

"I have had seven years of proof that Dr. King's New Discovery is the best medicine to take for coughs and colds and for every diseased condition of throat, chest or lungs," says W. V. Henry of Panama, Mo. "The world has had thirty-eight years of proof that Dr. King's New Discovery is the best remedy for coughs and colds, la grippe, asthma, hay fever, bronchitis, hemorrhage of the lungs, and the early stages of consumption. KEPT BY FEMALE DETECTIVE

ACCOMPANIED BY TWO MALE COADJUTORS.

And the Latter Placed Obliging Phrenologist Under Arrest in Pittsburg.

Pittsburg, Feb. 1.—Prof. W. Austin, phrenologist, was Friday given a hearing on the charge of being a suspicious character, and unless he pays the fine he will be sent to the workhouse for 60 days. The police claim that the comely wives of poor men of Pittsburg are being urged by certain phrenologists to leave their husbands and take up with some of the wealthy men of Pittsburg. The arrest of Austin is, according to Chief of Police Edwin McGough, the first step in rooting out the evil.

A comely young lady detective of the Pittsburg force was sent for a sitting with Austin. After feeling a few of her "bumps" Austin said to the detective, who had passed herself off as the wife of a Greensburg doctor:

"You are not happily mated."

"But what shall I do?" said the masquerading lady detective coyly.

"Why, there are a lot of rich men in Pittsburg who would be pleased to know you. I know a lot of them and will be glad to introduce you to them."

The lady detective made an appointment to meet Austin the next afternoon when she was to "be put next" to one of the Pittsburg rich men. She kept her tryst, but with her came two of the male detectives, who put the obliging phrenologist under arrest.

## HUNDREDS OF PEOPLE HERE NOW CURED OF INDIGESTION

The Following Tells How One 22-Grain Triangle of Diapiesin Will Digest 3000 Grains of Food and Cure Stomach Misery in Five Minutes.

Some people think they have indigestion, others Catarrh of the Stomach, others Nervousness, Cancer or Dyspepsia, etc. Call it this if you will, but the real name for your trouble is Fermentation of what you eat, with only partial digestion. Everything you eat turns to either Acid, Stomach Gas or Stomach Poison, which weakens the digestive organs, causing a loss of gastric juice. Your food sours, is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, burning sensation, a feeling of vomiting, heartburn, water brash and tenderness in the pit of the stomach, slimy tongue, bad taste in the mouth, constipation, nausea, belching of gas, dizziness, sick headaches, intestinal griping, mental depression and many other common symptoms.

You can cure all this by not eating, by not putting any food in your stomach to ferment; but how about the nourishment needed to sustain your bodily strength? If you are a

stomach sufferer, either man or woman, young or old, whether you call it indigestion or any other name, go now to your best pharmacy and give 50 cents for a case of Pope's Diapiesin.

These 22-grain Triangles are pleasant tasting and as harmless as candy, and will digest 3,000 grains of any kind of food you eat.

Every possible kind of Stomach trouble is readily cured by Diapiesin, which takes right hold of the food in your Stomach and digests it alone, without the help of the stomach, just as if your stomach wasn't there.

Your stomach will be as good as any after you stop this fermentation of everything you eat—this formation of Stomach Gas. After a few days use of Diapiesin your Stomach will again be in good working order, your intestines will be clean and fresh, and you will have no use for laxatives or liver regulators.

Pope's Diapiesin is not a secret concoction or patent medicine, as the complete formula is plainly printed on each case. It is a prescription built upon a thoroughly scientific principle which will prove true to any stomach sufferer within five minutes after taking the first Triangle.

ma, "The Man of the Hour," which William A. Brady and Joseph R. Grimes will offer to the Newark after goes Friday evening, February 7, is said to be so thoroughly vigorous, sturdy and pat upon the cry of political and social needs of the day and so fearlessly written. The play deals of love and of politics, with, it is said, politics predominating. I has to do with a man placed in office who is fighting to do what he sees to be his duty even "when his course means the loss of all the prizes most in life—even the loss of the woman he loves."

The story in brief concerns a young man who is elected mayor of a city by a political boss and a traction ex-

ploiter. When he is put in the men who nominated him think they can use him in furthering a big street car franchise, which is palpably a big steal. The young man, however, will not sign the bill granting the franchise and all sorts of influences are brought to bear upon him. He is threatened with the loss of the girl he loves, with beggaring the young woman and her brother, and even of having his dead father's name besmirched, but he remains steadfast to the end, and the result is that he comes out victor at last. The story is said to be told well by an exceptional company, which has found much favor at the Savoy theater, in New York, where the play has been running.

ORPHUM THEATER.

Standing room was scarce at the popular Orphum theater last evening. The amateur contest was enjoyed by everyone present and all voted it the best to be seen in a long time.

Tonight the writing desk will be presented to the holder of the lucky ticket.

An excellent bill has been arranged for next week which will include the Vaudeville, electric jugglers, the Lamonts, expert banjoists, Howell and Webster in a comedy sketch, Rosaire French, lamp operator and mimic, a new illustrated song and motion pictures.

HUMAN HEARTS.

"Human Hearts" the play of the Arkansas Hills, will be produced at the Auditorium Tuesday evening, February 4. Like "Shore Acres" and "The Old Homestead," time only increases its hold upon the hearts of people. The prattle of an innocent child, the tears of an old blind mother, the strong love of a simple country girl, the truth of a half-wit, the love of an old time negro, the passion of an adventurer, and the tender memory of a dead mother of the past of the governor of Arkansas are all clearly intermingled by the deft hand of the author of this absorbing tale of the Arkansas hills. Each succeeding season of this thrilling play's

### CURE FOR DRUNKENNESS

Orrible Treatment to be Used at Home  
Without Publicity, or Loss of  
Time from Business.

The best aid to temperance is some-  
thing that will strengthen the drunk-  
ard's wrecked nervous system and  
cure his unnatural craving for drink.  
We believe that any man who really  
desires to be cured of the liquor  
habit can cure himself by using Or-  
rine. This remarkable treatment has  
made so many cures that we are glad  
to sell it under an absolute guarantee  
to refund the money if it does not  
cure.

It is in two forms: No. 1 that can  
be given secretly, and No. 2 for those  
who wish to be cured. It is not only  
the most reliable treatment known,  
but it is also the most economical  
and it costs only \$1 a box and there  
is no detention from the usual duties,  
while if a cure is not effected, there  
is no expense whatever. Mail orders  
filled on receipt of price in plain  
sealed package. Write for free book-

## FOREIGNERS SETTLE FEUD

And Fight Results in One Man Being  
Beaten to Death—Arrests  
Were Made.

Pleasant City, O., Feb. 1.—Beaten  
with clubs and stones, George For-  
gitch was killed in a battle between  
rival clans of foreign employees in the  
Blue Bell mines. The fight followed  
an old feud.

Michael Korston, a second victim  
of the clash, is dying in a local hos-  
pital.

The two men were picked up  
on a highway after the fight. A posse  
of 25 citizens, headed by Marshal  
Trott, arrested six miners and brought  
them to the jail here, where they are  
under a heavy guard. The dying man  
says at least a dozen took part in the  
battle. Other arrests are expected.  
Those now in jail are covered with  
wounds, but none are seriously hurt.

Kansas City, Feb. 1.—Five persons  
were burned to death and fifteen were  
injured in a fire in a boarding house,  
this morning. The survivors escaped,  
scarcely clad and suffering intensely  
from exposure. Five bodies, burned  
to a crisp, have been found in the  
ruins.

The following are missing and it is  
believed they comprise the death list:  
Mabel Porter, Anna Graves, Charles  
Johnson, Peter Rooney, Mrs.  
Burk. It is thought the fire was  
caused by an explosion of natural gas.

**SLEEPERS**  
At the City Prison During January Numbered 467 According to Turnkey Swank.  
Ever since winter started "sleepers" have applied nightly at the city prison for lodging, and the number interested Night Turnkey Swank. He decided that during January he would keep a record of the sleepers and when a count was made this morning it was found that 467 of the homeless wanderers had been given shelter.  
During the entire month not a woman applied to the officer for a "bunk" for the night, though in times past visitors of the female sex have been registered. When the "boes" apply for quarters their names are registered, and knives and valuables, if by chance they should have any, are taken from them and kept until morning when they are turned loose.

**JOHN JOYCE, SR. DIES SUDDENLY**  
HEAD OF THE BIG GREEN-JOYCE CO. SUCCUMBS TO HEART DISEASE.  
Sitting in His Home, Reading to His Family When Summons Came Without Warning.  
While sitting in the library at his residence, 471 East Broad street, at 9 o'clock Friday night, reading to his family, John Joyce, Sr., was stricken and died within a few minutes of heart failure. For two years, Mr. Joyce had been in poor health, and while not actively engaged in business, kept in constant touch with the Green-Joyce company of which he was president.  
Mr. Joyce was born in Milwauke, Graigue, County Kilkenny, Ireland, on July 14, 1830, and was therefore 79 years of age. In 1849 he came to America, settling in Columbus, where he was engaged as a book-keeper with the Kilbourne-Kuhns company, which afterwards became the Kilbourne-Jones company. Finally he became the junior member of this firm, and later in 1866, resigned the position of assistant postmaster of the city to become a partner in the dry goods firm of Miller, Green & Joyce, which was the immediate successor of the Green-Joyce company.  
In the year 1858 Mr. Joyce was united in marriage to Miss Eliza Le Bruin Miller of this city. To this union were born the following children, who survive: Mrs. William J. Byrne, John Jr., Albert G., William J. Joyce and Mrs. H. Hagerty.  
Mr. Joyce was well known in church circles, having been a prominent member of St. Joseph's cathedral, which he attended regularly. He was also a well known figure in charitable work.

**Reasonable Rules For Rheumatism**  
Western Specialist Explains a Few Simple Rules for the Avoidance and Cure of Rheumatism, Kidney and Bladder Troubles.  
Dr. George Edmund Flood states that Rheumatism and the various forms of Kidney and Bladder Troubles are among the most easily curable diseases—that is, when they are treated in a sensible manner.  
According to Dr. Flood, those persons suffering from any of these ailments should exercise the greatest moderation in the consumption of rich foods. Dr. Flood has met with great success in his practice in the treatment of these complaints, and he has advised all of his patients to substitute for such a diet as we have just mentioned the simple and more nourishing soups, broths, fresh milk, fresh vegetables and plenty of pure water—lots of water.  
But, says Dr. Flood, observance of these rules will not suffice to effect a cure, although such observance is necessarily of the greatest assistance in the treatment. During all his practice, that is, in the treatment of Rheumatism, Kidney and Bladder Troubles, this eminent physician has employed one simple prescription which, he states, has proven itself of unvarying curative value. Dr. Flood has kindly consented that we reproduce a copy of this famous prescription in this column for the benefit of our readers.  
Fluid Extract Cascara Aromatic 1 1/2 ounce  
Concentrated Barkola Compound 1 ounce  
Aromatic Elixir 1 ounce  
Dose, one teaspoonful after meals and at bedtime.  
One can say it is pleasant to take and may be filled by any druggist, and where, or better still, you can get the ingredients yourself and mix them at home by shaking well in a bottle. Dr. Flood guarantees the success of the prescription if taken according to directions.

**BLIZZARD**  
STRUCK NEWARK AND WEATHER ON SATURDAY WAS MOST INCLEMENT.  
Many Horses That Were Smoothly Shod Fell on Streets—Market Men Went Home Early.  
Horses that have not been rough shod before this winter were taken to the blacksmith shops Saturday morning and the smiths had a bonanza during the entire day. The blizzard that struck Newark about 7:30 in the morning was the worst of the winter and kept many people off the streets. The people that had stands in the market early picked up their unsold goods and went home, as the weather continued against them.  
Many horses that were smoothly shod fell, and it was a common sight to see wagons and buggies standing by a curb, while the animals that hauled them were waiting their turn in a blacksmith shop. Wagons with tops were skidded along the streets, and on West Main street one wagon hauled by a team, skidded before the wind, turned almost around, and the horses, being smooth, both fell to the ground.  
Signs were blown down and people chased their hats for blocks and the men and women that had no particular business down street soon went home. It was the worst day of the winter, and probably was a touch of the storm that struck the eastern and southern parts of the country.  
The first day of February has established the month as the beginning of real winter.

**MIDGETS 19. GRANVILLE HIGH 11**  
The Midgets of the Newark Y. league journeyed to Granville Friday afternoon and defeated that team in a close, fast game. The Newark team was somewhat handicapped by the strange floor, as the score would indicate, but their fast work opened the eyes of the Granville players to the delight of a large crowd of spectators.  
The following is the line-up and number of points made by each player:

**FACTS FOR SICK WOMEN**

**LYDIA E. PINKHAM**  
No other medicine has been so successful in relieving the suffering of women or received so many genuine testimonials as has **Lydia E. Pinkham's Vegetable Compound**. In every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every one you meet has either been benefited by it, or has friends who have. In the Pinkham Laboratory at Lynn, Mass., any woman any day may see the files containing over one million one hundred thousand letters from women seeking health, and here are the letters in which they openly state over their own signatures that they were cured by Lydia E. Pinkham's Vegetable Compound. Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations.  
Lydia E. Pinkham's Vegetable Compound is made from roots and herbs, without drugs, and is wholesome and harmless.  
The reason why Lydia E. Pinkham's Vegetable Compound is so successful is because it contains ingredients which act directly upon the feminine organism, restoring it to a healthy normal condition.  
Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

**Nephew and Niece.**  
[Copyright, 1907, by C. H. Sutcliffe.]  
Old Peter Rhinehart, bachelor, was a very rich man and a very queer man. He had two brothers and a sister and three or four nephews and nieces, but for the last thirty years of his life not one of them was permitted to step foot across his threshold. When he reached the age of seventy and his health had begun to fail all his relatives and friends besought him to change his way of living. There was fear that he would die alone and untended. The old man refused to make any change whatever. What was feared came to pass within a year. After the old man had not been seen for two days the house was broken into, and he was found dead.  
Old Peter had made his will six months before. He had given to charity, and he had been generous with all his relatives, but the bulk of his fortune had been left to a certain nephew and niece. John Rhinehart was twenty-four years old and a son of the old man's brother. Mary Davis was twenty and a daughter of his sister. He had not seen either one of them a dozen times in his life. Though relatives, they cordially disliked each other. They met but seldom and always quarreled when they did meet. Neither was liked by the other relatives. At the time of the old man's death both were engaged to be married to others.  
Had old Peter studied for years he could not have wrought out a worse plan than he put in practice. The money was left to this pair on condition that they marry. If they did not marry, it was to be divided up among the others; if they did, the one who survived the other took all.  
At first both nephew and niece declared that they would not accept the legacy under the terms. They flouted the idea, and they talked of going to law. After a bit they took a different view of the case. The spirit of avarice predominated in both, and in their selfishness they concluded to obey the provision. It was stipulated that they must live together for at least five years unless death intervened and the legacy was to be paid in five annual instalments. Their engagements to others were broken, and they were married. They became man and wife, but lived together as two strangers. The feeling for each other was one of bitterest hatred.  
One day three months after marriage they went riding together in a boat on a mill pond. The husband hoped that some accident would happen and the wife be drowned. While he was planning to "accidentally" lose an ear and be swept over the dam she produced a pistol and threatened to shoot him if anything went wrong. A month later he got word that she had asked for poison at the drug store, and he charged her with an intention of killing him and thereafter was suspicious of his food. It was shown after his death that he bought a live rattlesnake and let it loose in the orchard. It was shown that she removed a ladder to give him a fall from the roof of the house. She went rowing alone to find that the oars had been tampered with, and but for a boy she would have been swept over the dam and drowned. He found that a gun he was cleaning and carelessly handling was loaded instead of empty.  
There was no doubt in the mind of any villager that the couple hated each other so bitterly that each had murdered at heart and that murder would have been done but for the fear of the law. A year passed away. The first portion of the legacy had come when the marriage took place. The second was paid when the first year had expired. A few days after this money had been received the husband suggested to the wife that they visit Niagara falls. They had not left the village since their marriage.  
"He wants to throw me into the rapids and send me over the falls," said the wife to herself as the suggestion was made, but in a moment she replied that she would be glad to go.  
"She will bring about my death there if she can do it," said the husband to himself as he looked at her.  
Both were right. We all saw them leave the village, and it was afterward said that they seemed to demean themselves more like husband and wife than ever before. At the falls they were taken for a newly married couple on their wedding tour. They strolled about, with her arm in his, laughing and chatting, and yet all the time they mistrusted each other and each had a plan. This dissembling lasted three days. They walked through Prospect park and over on Goat island by day and in the evening, but at length they took their last walk. It was down to the very brink of the falls. They sat there and held hands, and his arm was around her. Thirty different people noticed them. By and by as the hour grew late all went away—all but these two. They continued to sit there as people looked back. When they had not reached their hotel at midnight a still alarm was sent out. When another day came and they had not shown up there was a search made, and the landlord opened two letters found in their room and directed to him. The one read:  
"If anything happens to me here have my wife arrested. She seeks my death."  
The above was signed by the husband. The other was signed by the wife and read:  
"My husband has brought me here to take my life. If he succeeds I want him hung."  
Both had gone over the falls together. Their bodies were found far down a week later.

One of the most enjoyable events of the season was the 8 o'clock oyster dinner given at the home of Mr. and Mrs. Jonathan Inlow by the Madison township team of rat hunters to the Franklin township team, and about 40 invited guests. About 50 persons were present and regrets and best wishes were received from 25 who were unable to attend on account of the inclement weather and the distance to travel. The evening was spent in doing justice to the delicious dinner, together with social conversation and games. The affair was a decided success from every point of view. The following persons were in attendance: Mr. and Mrs. Jonathan Inlow, Mr. and Mrs. Curtis Rian, Mr. and Mrs. James Hunter, Mr. and Mrs. Will McInturf, Mr. and Mrs. Frank Hunter, Mr. and Mrs. Geo. Osburn, Mr. and Mrs. Will Ballinger, Mrs. Nettie Inlow, Mr. Chas. Kreager, Mr. Al Kreager, Miss Alice Osburn, Cora Skinner, Mamie Harlshorn, Anna Osburn, Mary Shaw, Celia Hughes, May Good, Nellie Osburn, Edith Crawford, Lizzie Thompson, Myrtle Neighbour, Fern Neighbour, Helen Rian, and Messrs. **TESTED AND PROVEN.**  
There is a Heap of Salace in Being Able to Depend Upon a Well-Earned Reputation.  
For months Newark readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.  
M. B. Melick, 61 W. Church St., Newark, Ohio, says: "I highly recommend Doan's Kidney Pills as I used them for kidney trouble and obtained great benefit. I had a constant dull aching across the small of my back which would change to sharp twinges whenever I stopped or overexerted myself in any way. I also had pains in my hips, sometimes so severe that I was forced to take to my bed. I tried Balmints and used numerous remedies but obtained no relief until Doan's Kidney Pills were finally recommended to me and I procured a box at Crayton's drug store. After a short use I found them to be just the remedy my system required as they banished my troubles and I have had no return of them since." (From statement given November 5, 1904.)  
**CONFIRMED PROOF.**  
On Nov. 26, 1907, Mr. Melick said: "I gladly confirm everything I said in my former testimonial for Doan's Kidney Pills, as I have not suffered from backache or rheumatism since they cured me. I am convinced that Doan's Kidney Pills deserve all the praise given them."

## THE LODGES

### Modern Woodmen.

Cedar Camp met in regular session Monday night with all officers and 56 of the members present. Six beneficial, two social and two transfer applicants were elected. Jesse Rouse was adopted as a beneficial member. The beneficial degree only was put on and the Forester team gave a fancy drill for the benefit of visiting neighbors.

J. W. Shannon, J. A. Allbaugh, W. F. Weakley, Chas. Hurbough, Howard Deremer and C. L. Connell were reported sick.

All members are invited to hear Judge Lindsey at the Auditorium on Thursday evening. The admission is free.

The claim for \$2,000 on account of the death of Neighbor Harry Davis was paid to Mary A. Davis on Jan. 28. Assessment No. 231 is due for the month of February and is payable on or before the last of the month.

### American Insurance Union.

Newark Chapter No. 21 met in regular session Thursday evening with a full attendance. Two applications were presented and two candidates were put through the work by the gentlemen's degree staff. The new team made a good impression for its first appearance, there having been a number of new fancy figures added to the drill.

For the meeting two weeks from last Thursday night a committee was appointed on refreshments, which means something good in store on the third floor. A class of candidates will also be initiated on that date.

Sick benefit claims were paid since the last meeting amounting to \$157.50, but leaves seven members still on the sick list.

The next bi-weekly dance will be given on Thursday evening, February 6. This dance will be of the married people's variety. The committee insists on the invitations being presented to avoid embarrassment at the door.

### Odd Fellows.

A good attendance of the membership of Olive Branch Lodge No. 34 at the regular meeting on last Tuesday evening, were well entertained by witnessing the conferring of the initiatory degree on one candidate by the degree team of that lodge.

### Red Men.

Minnewa Tribe, No. 52, met last night in regular council at their wigwam. Considering the disagreeable weather there was a good attendance.

## RAINFALL FOR 1907 WAS BELOW AVERAGE AT LOS VEGAS N. M.

In Spite of Which Most Abundant Crops Were Grown in That Country.

Los Vegas, N. M., Jan. 18.—The rainfall for the year 1907 amounted to exactly eighteen inches or .92 inches less than the average rainfall for the past twenty years. In spite of the fact that there was less rain this year than the average for the past twenty years, better crops could not have been asked for than were raised on the mesa during the past season. This proves conclusively that San Miguel county is adapted to agriculture without irrigation.

What is better is that the rain falls when it is most needed. During the time usually devoted to plowing the months are comparatively dry and during the growing periods, plenty of rain falls. The rainfall by months was as follows:

1907.	Inches.
January .....	1.57
February .....	.01
March .....	.07
April .....	2.13
May .....	2.57
June .....	.77
July .....	5.77
August .....	3.30
September .....	.22
October .....	.82
November .....	.77
December .....	.29

Total ..... 18.00  
The precipitation for June this year was unusual, owing to the fact that only .77 of an inch of rain fell while for 1906, which was nearer the average, there was a rainfall of 1.91 inches.

John Tucker will leave Newark on February 4 with a homeseekers' excursion to the southwest. Those wishing to join the party let Mr. Tucker know as soon as possible, so that steps can be provided. Excursion rates for further information about this trip to New Mexico, the land of opportunity, see John Tucker, 71 1-2 East Main street, Newark, Ohio.

and a great amount of business was transacted. On next Friday evening February 7, the adoption degree will be conferred upon seven palefaces, and a large attendance is expected. Sunday afternoon the degree team will practice at the hall at 1:30.

### Hay Makers.

The Hay Makers met last night and it was decided to change the big hay make from February 5 to February 18. The newly elected officers then proceeded to their stations as follows:

Past Chief Hay Maker, J. P. Baker. Chief Hay Maker, Steward Caffee. Asst. Chief Hay Maker, H. V. Johns. Overseer, John Stapleton. Hornblower, Geo. Fisher. Boss Driver, Uriah Snow. Guard of the Barn Door, Wm. Stasell.

Guard of the Barn Guard, V. Barker.

Captain of the Team, C. Redman.

The list of candidates is now filled and as some new machinery has been secured and the old implements sharpened we will cut seven acres of hay instead of four as we formerly did. The North End drum corps and the Hay Maker band will discourse discords and Aunt Sarah will have charge of the refreshments.

### Camels.

Regular meeting of Monarch Temple No. 66 will be held next Wednesday evening, February 5, in the O. R. C. hall South Park Place. Members are requested to make a special effort to attend this meeting. After the regular business is transacted we will have a social session.

### Tribe of Ben Hur.

Alpha Camp, No. 51, met last Monday evening in A. I. C. Hall. A good time was had by the members present. It is requested that all members be present at the next regular meeting to talk over business of importance and the sending of our representative to the Supreme court meeting. There is a good time promised to all members who care to come and show their interest in the lodge. Do not fail to attend the next regular interest.

## DEPOSIT

OF \$5,000,000 OF VANDERBILT WEALTH MADE IN HUNGARIAN BANK.

In the Name of the Count and Countess Szechenyi Jointly—Former's Allowance Limited.

New York, Feb. 1.—Five million was deposited Friday in the Hungarian Discount and Exchange bank, in Budapest, in the name of the Count and Countess Szechenyi.

The money came from New York, according to cable dispatches received here last night, and was in the shape of a credit draft upon one of this city's largest institutions, known to be a depository of part of the Vanderbilt millions.

It was the first tangible evidence of the "dot" which the young heiress brought to her titled husband.

As the deposit in the Budapest bank was made in the joint names of the Count and Countess, it lends evidence to one of the stories told before the wedding to the effect that the Count would not be allowed to spend more than a certain sum each year without his wife's permission.

## NOTABLES ATTEND PRELATE'S FUNERAL

Paris, Feb. 1.—Such a gathering of notables as perhaps never assembled in Paris before attended the funeral services for the late Cardinal Richard in Notre Dame Cathedral today. In accordance with the late cardinal's expressed wish the hearse was of the fifth class, the casket a plain one and the mourners' carriages few. It transpired today that a few hours before his death, the expiring prelate predicted, in a kind of trance, that the Kaiser's death would shortly follow his own.

## ACTRESS FELL IN A FAINT AND MAY DIE

Chicago, Feb. 1.—After lying unconscious in the snow for hours, after receiving a fractured skull in a fall, Miss Belle Gaffney, an actress in the College theatre company is not expected to live today. She was returning to her home, 377 Bissell street, when the accident occurred. Lying under the Northwestern elevated structure, where she fell, for an hour or more Miss Gaffney regained consciousness and crawled on hands and knees to her home, three blocks away. Here she laid down in a faint on the doorstep where she was discovered some time later by a friend who lives at the same number.

Is the Reason Assigned by Mikado's War Minister for the Active War Preparations.

Tokio, Feb. 1.—Japanese war preparations are not directed against any particular nation, according to statement by Minister of War Toranichi in the Diet committee meeting today, but "against eventualities on the Pacific, protection being necessary for the long Japanese coast line from Sakhalin to Formosa." An official statement from the foreign office today declares that negotiations with American concerning the question of Japanese immigration may practically be considered settled. Former United States Ambassador Aoki is to be reappointed to the post.

# Brainy Bowers Joins the Army and Gets Promoted

# DRESSY WAISTS AND DRESSING SACQUES

**A**n attractive design for a blouse waist is No. 707. In a dainty development of plaid silk and all-over lace. The mode is generally very becoming and practical as well, as it may be in either high or low neck, and the pattern provides for long or three-quarter length sleeves. The front and back is laid in fine tucks, but if preferred gathers may dispose of the fullness, either style being very pretty. Taffeta, Henrietta, challis, velveteen and

pongee are all available for the design. For 36 inch bust measure 2 yards of 27 inch material will be required.

**Ladies' Blouse, No. 707.** To be tucked or gathered, and in high or low neck. Sizes for 32, 34, 36, 38, 40 and 42 inches bust measure.

Soft China silk was used in the development of this dainty dressing sacque (6100), and blue satin ribbon was used for the trimming. The garment is semi-fitting, being cut on easy,

graceful lines, and a large plastron renders the mode somewhat unusual and very dressy. It is gathered and caught to the waistline with loops and ends of the ribbon. The sleeves may be in elbow length, prettily finished by deep frills of the material, or they may extend to the wrist, gathered into straight cuffs. Lawn, dimity, dotted Swiss, crepe cloth, silk and challis will all produce attractive developments. For 36 inches bust measure 4 1/2 yards

of 27 inch material will be required.

**Ladies' House Jacket, No. 6100.** Sizes for 32, 34, 36, 38, 40 and 42 inches bust measure.

The embroidered blouse has taken a firm and lasting hold upon the fashionable world, and the sheerest and daintiest of fabrics are used in the making. Model 669 is very attractive, and absolutely simple; the effect of elaboration being obtained entirely by the application of trimming, so that the labor of

making is very slight. The pattern provides for a yoke in either of two fanciful outlines, and for full length or elbow sleeves. Persian lawn, linen, dimity, China silk and mull are all suitable to the development. For 36 inches bust measure 2 1/2 yards of material 36 inches wide will be required.

**Ladies' Lingerie Blouse, No. 669.** Sizes for 32, 34, 36, 38, 40 and 42 inches bust measure.

A very dainty and becoming jacket is shown in design 6116, developed in dotted challis and trimmed with fine pleatings of silk. Underarm and side back seams aid in giving a shapely appearance in the back, and a broad sailor collar finishes the neck. The full sleeves are shirred at the lower part to form a ruffle. French flannel, pongee, lawn and dimity are all suitable to the design. The medium size will

require 2 1/2 yards of 36 inch material.

**Ladies' Morning Jacket, No. 6116.** Sizes for 32, 34, 36, 38, 40 and 42 inches bust measure.

Patterns will be sent to any address on receipt of ten cents each, by Marjorie Lane, 43 West Thirty-fourth street, New York City.

To avoid delay, do not fail to state size of pattern desired, and be sure to write name and address plainly.

## Baby's Mid-Winter Raiment

**T**HE gowning of her last-born is often a problem with the busy mother. When the first baby or two arrived on the scene, making the tiny coats, frocks, sacques and petticoats was a pleasure. But as these babies grew into big boys and girls and other wee figures come to fill their places in cradle and high chair, the making of many small garments is apt to degenerate into a burden almost grievous.

Yet every mother should try to find pleasure in this sort of sewing, for never again in the children's lives will the results of her handiwork give her such pleasure. A daintily dressed baby, from twelve months to three years, is a bright spot in any home circle. If the mother is burdened by many household tasks or social duties, then she should press the elder daughters into this service, and teach them that dainty sewing can be turned to other uses than the making of handkerchiefs, blouses and embroidered lingerie for themselves.

Until a baby learns to creep or toddle about into all sorts of mischief damaging to frocks, white is the one hue to be chosen for all garments, indoor or outdoor. And in fact, white is the most economical hue, because it will wash and dry-clean as no delicate tint ever will. But the word "white" should not mean that babies do not need warm raiment, just like their elders. Of course, in steam-heated homes or houses kept almost at blood-heat by furnaces or stoves, the wash fabrics can be used exclusively. The up-to-date mother, however, does not keep her home so hot, and therefore it is often better to have wool slips to wear under the white wash frocks.

For this purpose, the less expensive outing or wash flannel is the very best fabric. Do not select too tightly woven a piece, but allow for some "fraying" in the laundry. I have seen just the right weight in outing flannel for these little under-slips at 4 and 8 cents a yard, in white, cream, pale blue and pink. Both the white and pink

laundry admirably. Blue is apt to fade or "yellow," especially if allowed to freeze. These little slips should be made very plainly, with the plain coat sleeve, a semi-fitted waist or plain yoke and untrimmed skirt. The latter should be just a trifle shorter than the outside wash garment.

And talking of these little under-slips reminds me of something very pretty that I saw in a shop devoted exclusively to infants' wear. In a complete baby outfit there were half a dozen of these little flannel under-slips, with over-dresses to match. That is, the little dresses were made of white lawn with a band of flowered lawn just above the hem, at the cuffs and around the neck. In a tint to match the under-slip. If the under-slip was pink, the overdress was of white lawn, and the band-trimming showed pink roses, the tiny moss rosebuds of your grandmother's time and mine. If the under-slip was blue, very delicate ragged robins appeared in the colored bands. The band above the hem was about three inches wide and the wrist and neck bands were an inch or less.

The little kimono-sleeve is much seen this winter on frocks for toddlers, and on their little sacques for house wear, but all heavy coat sleeves for outdoor wear are either bishop-shaped or on the simpler mannish coat sleeve lines.

All well-dressed children of tender years give the appearance of simplicity, but in reality there has never been a time when such exquisite care was taken in selecting fabrics and setting hand-stitches. Handkerchief linen, batiste, finest of lawns and muscoks, these enter into all the tiny frocks for best or afternoon wear, and when lace is used, it is the finest of French or German Val, or real Torchon, than which no lace wears better. Hand-embroidery, either in satin stitch, convent or eyelet patterns, is used to the exclusion of the machine-made insertions and edging, and the scallop, so popular on blouses and lingerie worn by Big Sister, appears also on Baby's garments.

## Card Party Luncheon Recipes

**Beefsteak:** Two pounds of beef, one pound of bones, two quarts of cold water, one tablespoon of salt, four whole peppercorns, four cloves. Wash the meat and bones and add the water, season and let simmer for two or three hours. Boil down to one quart, strain and let it cool. Then remove the fat that has risen, heat again and it is ready to serve.

**Creamed Oysters:** Melt two tablespoons of butter in a saucepan, and add to it two heaping spoons of flour, cook for a few moments, and stir in gradually two cups of milk which has been heated. Wash and pick over carefully one quart of oysters, boil them in their own liquor, then drain and add to the cream. Salt and pepper to taste. If necessary to thicken, add a little oyster juice. Two tablespoons of sherry will also give a nice flavor to this dish.

**Creamed Chicken:** One pint of chicken meat already cooked, one-half cup of cream, two tablespoons of butter, two tablespoons of flour and a little chopped parsley. Melt the flour and butter, pour in the cream very slowly and work until smooth. Stir in the chicken meat and parsley, which have been chopped in medium pieces, and cook for five or ten minutes. This can be served on toast.

**Mixed Sandwiches:** Cut fine one cup of any cold meat, such as turkey, chicken or veal, one cup of nutmeats, chopped finely, one box of sardines, four small cucumber pickles, chopped very fine. Add plenty of lemon juice and mix well. Spread on lettuce leaves between white bread. This sandwich is also very delicious with mayonnaise dressing.

**Peanut Sandwich:** Chop the meats very fine, or put through a coffee mill, salt to taste and add a little sherry or port wine to make a thick paste. This is much better than the peanut butter, which can be purchased already prepared.

**Orange and Date Salad:** Remove the pulp and inner skin from six oranges and one grape fruit, and break them into very small pieces. Mix this with one pound of dates that have been stoned and cut into fine strips, and a half cup of nutmeats chopped rather fine. Serve on lettuce leaves with the following dressing: The yolks of two eggs beaten very light and add half a cup of powdered sugar, and one cup of sherry or port. If wine is not liked, use a cup of orange juice with a tablespoon of lemon juice in it.

## HAIR HINTS TO SUIT SPRING MILLINERY

**A**LREADY Paris is sending advance news about spring millinery, and the first models point a moral to the woman who would be strictly up-to-date. She must look well to her hair, its condition and modes of dressing. The hat tilted on the left side to show well-groomed tresses beneath, and the tiny toque with sharp wings on either side, for all the world like Mercury's cap, lead all hat shapes. This last means hair to set off the hat, not a hat to set off the hair, so it is none too soon to get your hair in prime condition if you would meet the spring and summer styles half way. There will be no friendly shadows of drooping crowns and thick veils to hide carelessly-dressed tresses this coming season.

Perhaps the most important item in the condition of the hair is cleanliness. You may have hair that reaches below your waist, but if you neglect to shampoo it, and it hangs dead and oily, then the girl with the hair to her shoulders, who keeps it clean and bright, will make a far better showing.

Time was when there was a set rule for shampooing the hair once a month. This rule cannot be applied to every woman, for the girl with oily hair should shampoo it once a week, while all blondes should shampoo every other week at least. Neither will the same shampoo preparation serve for all heads. The girl whose hair is naturally dry needs a stimulating shampoo with oil in it to feed the scalp, while the girl with over-much oil should use a shampoo containing ingredients which tend to dry up the superfluous grease.

For the average head, the following shampoo is very beneficial:

Yolk of one egg, one pint of rain-water (lukewarm) and one ounce of rosemary spirits.

Beat the mixture thoroughly and use it warm, rubbing it well into the scalp. Rinse in many waters and dry the hair in the sun, and open air if possible. Always select a dry, sunny day for shampooing.

Sometimes a dry shampoo is very beneficial and imparts to the hair a pleasing odor. If any of my readers who would like such a formula will send me a stamped and self-addressed envelope, I should be glad to send it to them.

But do not think that shampooing the hair now and then will serve to keep it fluffy and in generally good condition. Your hair needs daily attention, just as other parts of your body. Many girls have parted their hair so long in one place that little bald spots begin to appear, or the hair falls to grow thickly about the temples. Nothing is better for this condition than pure vaseline, but be careful when putting it on to rub it into the scalp and not get it all over the hair.

Be careful to use combs and brushes of good quality, and above all things, avoid the wire brush—you might as well scratch your scalp with numberless pins. Choose a brush with good bristles, not too hard, and a comb of celluloid or shell, rather than rubber. At least once a week ventilate your hair by running your fingers through it and tossing it so that the air reaches the scalp; and the oftener you let it hang down your back in a braid once in a while. In this way the continual strain on one part of the head is relieved.

making is very slight. The pattern provides for a yoke in either of two fanciful outlines, and for full length or elbow sleeves. Persian lawn, linen, dimity, China silk and mull are all suitable to the development. For 36 inches bust measure 2 1/2 yards of material 36 inches wide will be required.

cellar, dark, dry, well-ventilated, where the winter temperature never goes higher than forty degrees nor lower than thirty-three, is the best place to keep winter vegetables. Turnips, potatoes, carrots, beets, and parsnips can be stored there, preferably in barrels laid upon the side, after heading up, with holes in both heads and around the bung. Barreled apples also keep well in such a place. It should not have bins; they give harborage to dirt, smelly and taints. A small, it should be understood, is kindly nature's danger-signal of some condition that needs to be abated.

If fine fruit, such as winter pears or choice apples, must be kept in such a cellar, wrap separately in tissue-paper, and set so as to bury in moss touching upon a ventilated shelf. This may be either of inch-wide hard-wood slats, nailed a quarter-inch apart, or thin hard-wood board, with quarter-inch holes bored thickly all over it. Such shelves should be movable. In summer, when the furnace is out of commission, they may be swung upon ropes hung from hooks in the ceiling of the main cellar, and used to hold fruit and fresh perishable things. Swing them one above another, in sets of three, say ten inches apart. After filling them, tie a wide cheese-cloth sheet, one big enough to surround the shelves up to the ceiling hook, then fasten it so as to inclose the whole set. This keeps out flies, gnats, and dust, while not preventing free access of air.

Spread things such as green peas, string beans, spinach, and green vegetables generally, in a thin layer all over a shelf, first washing the vegetables very clean, and draining them fairly. Often one can buy from a huckster or market-man several days' supply for what one would otherwise pay for a single dish. Do not wet either cauliflower or young cabbage. Put them on the highest shelf, first tying down the outside leaves with soft string. Waterproof paper may be tucked lightly over the cauliflower.

**Frankness** is a beautiful quality, but it is not always temperate frankness with mercy and love, and never say what can be just as well left unsaid. It is not difficult for me to recall to mind the case of a certain Miss A., who called herself the very good friend of Miss B., and who in many ways and for several months proved her devotion in charming fashion.

But eventually they fell apart, for poor Miss A. could never refrain from frankly telling of the little sharp or amusing comments she heard at Miss B.'s expense, and Miss B. was nothing less than human and sensitive to resent such freedom of speech. The saddest and kindest source then to follow is never at any time to tell your dearest intimate though she may be as close to you as a sister that you have heard disparaging remarks about her choice in spring hats, or that Mr. Jones wonders why she wears red when it is for her so unbecoming a color, or that Mrs. Brown thinks that she is adopting quite the wrong course in training and educating her children.

Though you know that Mrs. Dash does not admire your friend, Mrs. Brown, and says really unkind and unjust things about her, think long and carefully before you go to Mrs. Brown with a clear account of Mrs. Dash's in-

curd, and save it from turning dark. Three hours before cooking heads thus kept, trim them, wash well, and put in cold water with just a suspicion of salt in it. If they are wilted, it will freshen them greatly. In a cool cellar, well covered and away from dust, cauliflower ought to keep a week, and cabbage too. Beans are unsafe after two or three days. Peas will keep a week, or, if the yare of the big marrow-fat sorts and well filled, ten days. All sorts of vegetables should be looked over every day, and those which show signs of mould or rot, removed, along with all those touching the mouldy spot. Once a week empty the shelves and wash well, finishing by a rinse with clear lime-water.

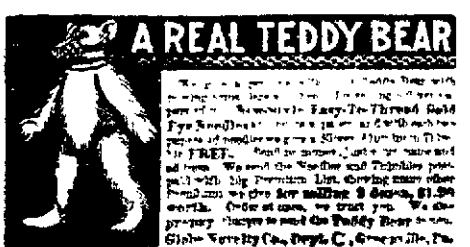

Give each sort of vegetable a separate shelf. Especially tomatoes. If from seed and a crop of fully matured green tomatoes on the vines, they may be ripened through the next month, by plucking them carefully, each with an inch of stem, wrapping them in soft paper, and setting them separately upon cellar shelves or upon trays—wooden trays—in a kitchen closet. The warmer the place, the quicker the ripening. It must not, however, be too warm, or the tomatoes will rot very quickly.

Radishes, lettuce and celery are all ill to keep. All three require moisture, yet will not bear lying in water beyond a few hours. Radishes will keep crisp for two or three days if they are tied carefully in bunches of a dozen, and hung so their tap-roots can touch water, then set in a cool place. Sometimes the same treatment will keep lettuce in fair condition. Set the heads separately, roots down, in shallow cups three parts full of water, cover each head with a sheet of paraffine-paper, and tie the paper well down round the cup. Keep cool and, if light strikes the cups, turn them around daily. Celery will keep for a day or two if each root is wrapped separately in a moist clean cloth, then in a thick dry cloth, and set, stalks up, in a cool dark place, one just above the freezing-point is best.
